### THIS MONTH, LET'S NORMALIZE: ...DOING IT IN COMMITTEE

### Why Committees Matter: The CORE of Pi Delta Omega

Have you ever sat in a full membership meeting and thought, "This feels like a lot to cover in one session"? That's because it is! The real work—where ideas are explored, decisions are shaped, and strategies are ironed out—happens at the committee level. Committees are not just where the magic happens; they are the engine that keeps us moving forward with clarity, purpose, and impact.

#### So... Why Committees?

Committees are smaller, focused groups that dive deep into specific areas of our mission. Whether it's Membership, Finance, Programs, Protocol, Sisterly Relations, or any other focus, each committee is made up of members who bring passion, perspective, and expertise to the table.

This structure allows for detailed discussions, thoughtful debate, and research that simply can't fit into the timesolutions, an group, it's all meetings efficient, productive, and respectful of everyone's time.

TVC.APRIL.2025 - Magazine h questions, brainstorm opic makes it to the full le. That keeps our larger meetings efficient, productive, and respectful of everyone's time.

Risk Monoger and people—and that means you matter more than you know. This is your official invitation to get in the driver's seat and join a committee that excites you, challenges you, and lets your gifts shine.

Think about it: if the same few people are steering the wheel every time, we miss out on the brilliance, creativity, and perspective that YOU bring to the table. Don't just ride along—take an active role in shaping the direction we're headed. Don't let someone else drive all the time. Slide into the front seat and help steer this sisterhood forward.

We don't need perfection—we need participation. Whether you're overflowing with ideas or just want to support something meaningful, there's a place for you.

Your presence makes a difference. Every successful event, every strategic decision, every powerful moment started in a committee.

# COMMITTEE VOWN

#### Why You Should Join a Committee...

This isn't just about process—it's about power. Joining a committee means you have a direct voice in shaping what happens next. You get to:

- · Champion the causes that matter most to you
- · Build relationships with others who share your passion
- · Develop new leadership skills
- · Be the first to brainstorm and influence key decisions
- · Make real impact, not just observe it

And let's be honest—working closely in a committee is also where friendships form, laughter happens, and creative sparks fly. It's the space where your ideas are not only heard but needed.

Your participation in chapter committees also helps strengthen your sorority profile and is required to hold some leadership positions and when potential chapter growth is being considered.

#### Find Your Fit

There's a committee for every interest, and if you're not sure where you belong—just ask! We'll help you find the place that lights you up and gives you the opportunity to make a meaningful difference. So if you've been wondering how to get more involved or make your voice heard—this is your sign. Step into a committee. Your ideas matter, your energy is needed, and your investment can change everything.

#### Join a committee.
